## WHY A GRAND FAVORIT?

*The right balance between quality and price*

Do you not get enough of jumping? No problem! The BERG Favorit provides years of pleasure, hardly wears and requires little maintenance. The BERG Favorit has been developed with great attention and care. This has resulted in a qualitatively excellent trampoline, which is safe to use.

In this productsheet you can find information about:

- The oval shape
- The protective edge
- The jump mat
- The springs
- The frame
- The Safety Net Comfort™

### Warranty

Frame:	8 year*
Protective edge:	2 year
Jumping mat:	2 year
Springs:	2 year

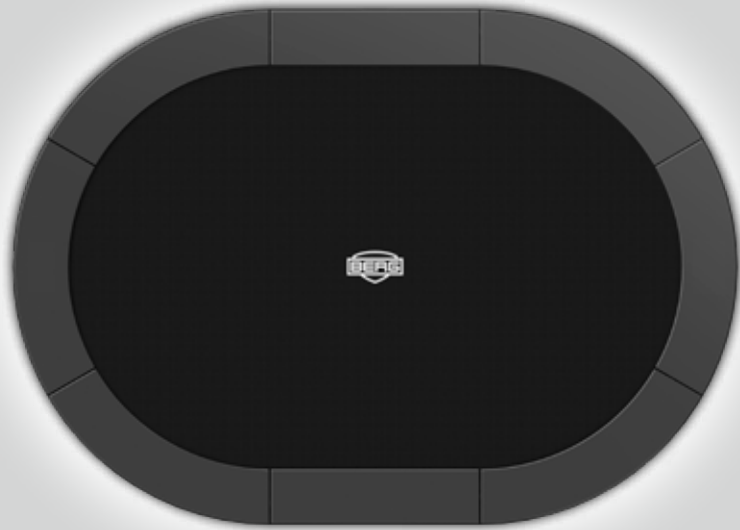

\* On registration at [bergtoys.com/registration](http://bergtoys.com/registration).

Practice your **favourite**  
**jump** safely!

## 1. THE OVAL SHAPE

The oval shape combines the efficient strength of a round frame with the large jumping surface of a rectangular trampoline. On an oval trampoline you can make some nice jumps over the entire length.

**BEST OF BOTH**

**Strength**

**Perfect Jump Area**

**Ø 48 mm**  
Frame tubing  
Grand Favorit 520

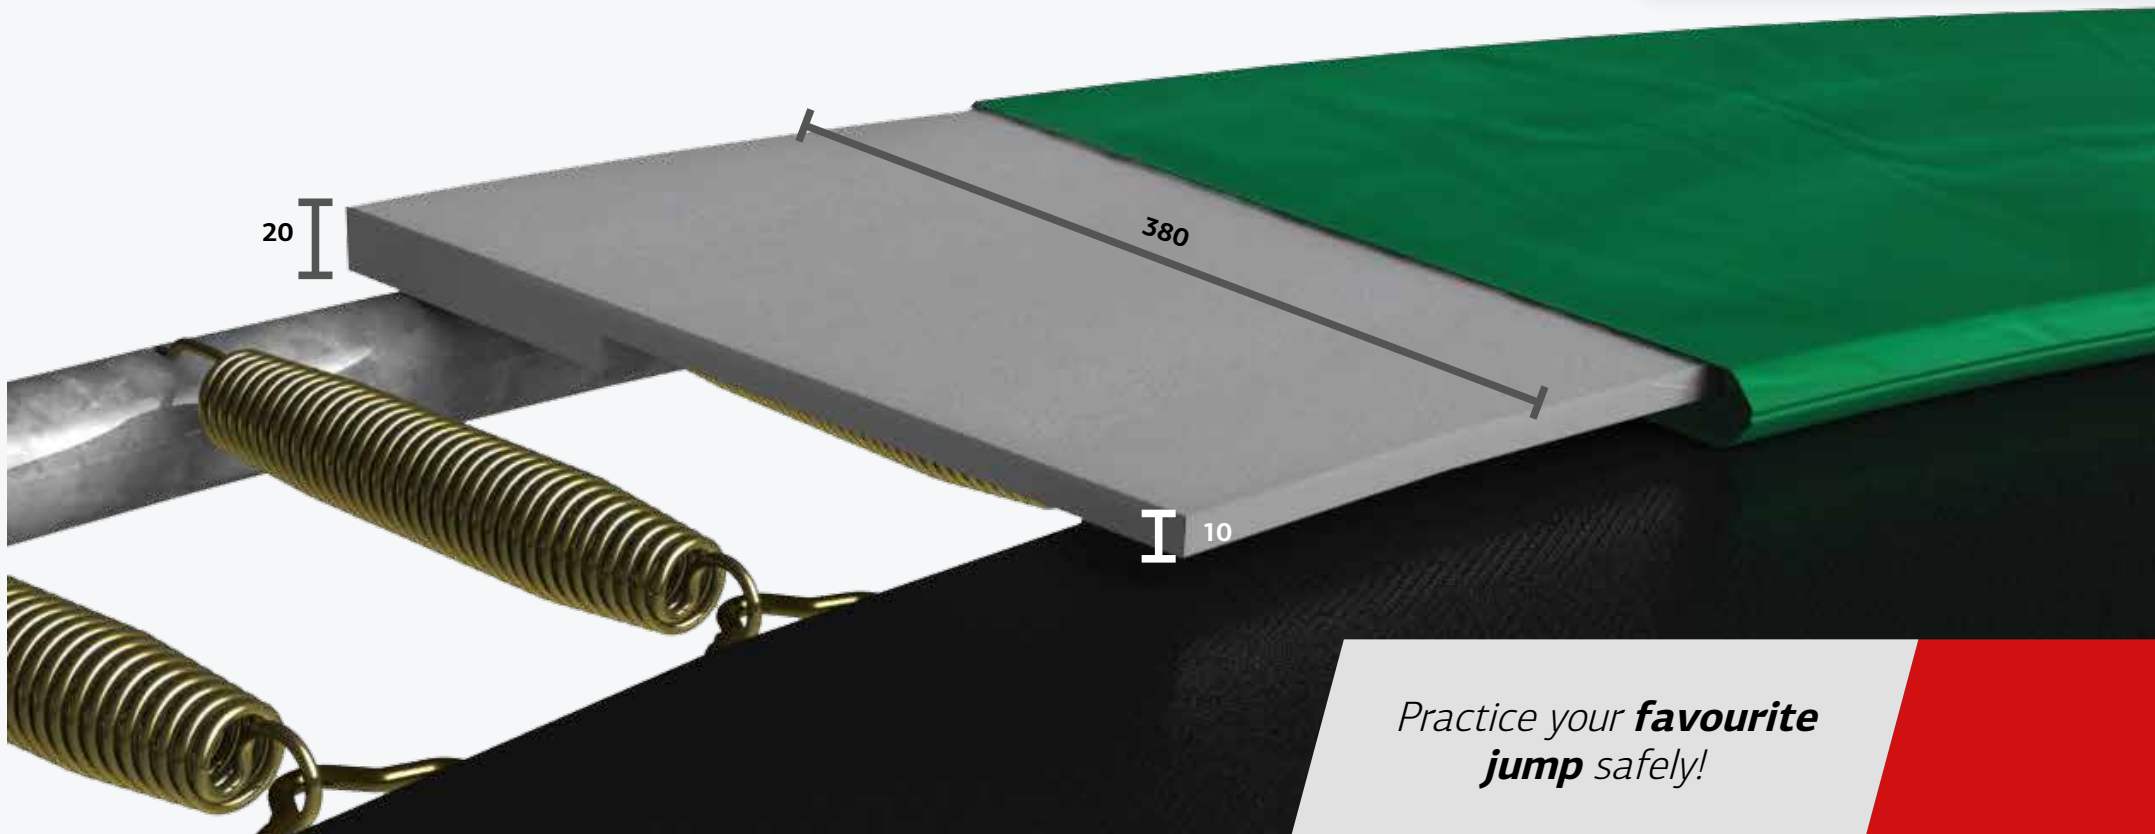

**Ø 42 mm**  
Frame tubing  
Champion 430

**Ø 50,8 mm**  
Frame tubing  
Ultim Champion 330

## 2. PROTECTIVE EDGE

The Grand Favorit trampoline has a padding with a 20/10 mm thick foam layer. The foam layer is made from water-repellent "closed cell foam". The foam is covered by a thick water-resistant top layer of enforced PVC. The padding is 380 mm wide which ensures a good protective overlap of the springs.

Practice your **favourite jump** safely!

### **3. THE JUMP MAT**

The durable jump mat is made from woven polypropylene. The loops for the strong metal spring eyes are thoroughly joined to the jump mat with no less than 8 rows of stitching.

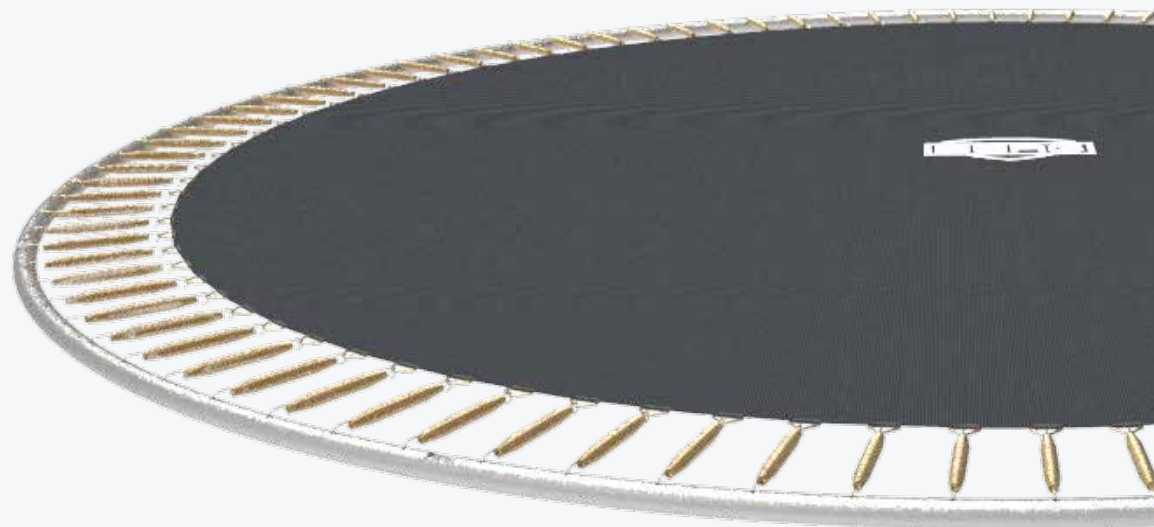

*Practice your **favourite jump** safely!*

## 4. GOLDSRING SOLO

The Favorit has Goldspring Solo springs. These are longer than the springs on the Talent trampoline line. This makes the springs more flexible. These springs are galvanized internally and externally with a solid corrosion-resistant zinc coating.

Practice your **favourite jump** safely!

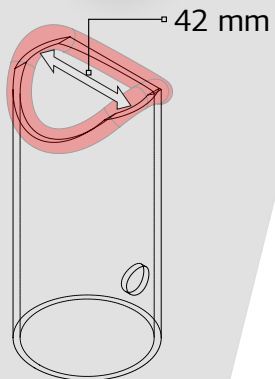

## 5. FRAME

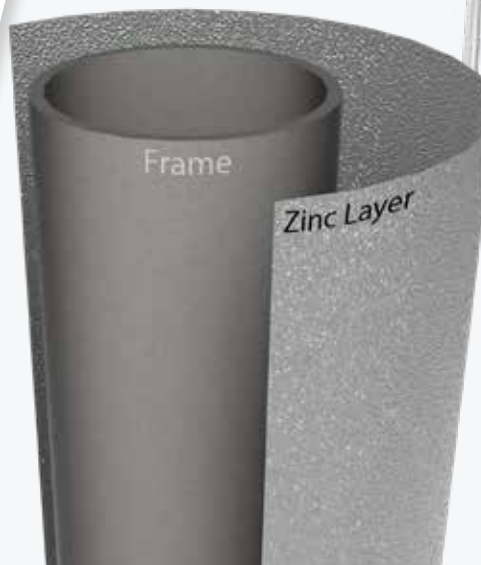

The Grand Favorit has a solid frame of strong tubes with a substantial tube thickness. The frame is highly rust-resistant caused by the special double coating on the tube. The frame is easy to assemble.

The new top rail design offers extra strength and stability and improves the life span of the frame.

Original design

Improved design!

Practice your **favourite jump** safely!

## 6. SAFETY NET COMFORT

The Safety Net Comfort is a safe net through the self-closing entrance with recognizable piping. The poles of the net can easily be attached to the trampoline frame (Regular or InGround). Due to the thick foam around the poles, it is extra safe.

Foam padding around the Safety Net poles provides extra protection

## BERG GRAND FAVORIT + SAFETY NET COMFORT

*The right balance between quality and price*

BERG Trampoline

If you prefer not to dig a hole in your garden, a high trampoline is a good choice. A high trampoline is easy to install and move around. A high trampoline is also clearly visible in your garden.

## BERG GRAND FAVORIT INGROUND + SAFETY NET COMFORT

*The right balance between quality and price*

BERG InGround Trampoline

A sunken trampoline with a safety net has a low threshold, making it easy and safe to step onto. The InGround trampoline is less visible in the garden than a high trampoline.

## BERG GRAND FAVORIT INGROUND

*The right balance between quality and price*

BERG SPORTS Trampoline

The sunken trampoline without safety net (sports) is nicely concealed in your garden. The low threshold of 27 centimetres makes the trampoline easy and safe to step onto.

Article number	EAN - Code	Product name	Number of springs	Entrance height in cm	Testweight in kg	Max weight user KG	Tube diameter / wall thickness Toprail in mm	Tube diameter / wall thickness Legs in mm	Padding thickness in mm	Width padding in mm	Totale height trampoline in CM
